### Who are we?

QMSrs is a UK based company offering unique and comprehensive Quality Management Solutions for any size or type of organisation.

Our modular concept offers complete flexibility providing the most cost effective solutions from the outset.

Web-based, online and paperless system offering real-time management information.

Our flexible solutions are designed to expand and grow with your business.

### What do we offer?

We offer a uniquely secure solutions platform for housing and governing an online QMS. This allows users to access any information and documentation from the QMS from any location with maximum ease and speed using drill down and diagrammatical process approach.

Our solution allows divisional and country variations where country laws demand it, and at the same time maintaining a corporate standard.

The concept of a paperless QMS is now a reality not just a wish.

All organisational processes are integrated and built into the platform allowing Senior Management to remain fully informed in the performance of the organisation. There is no need for any manual effort to obtain and manipulate data in order to report on results.

### Outsource Your Quality Function

Complete outsourcing of your QMS management, maintenance, consulting and other Quality Skilled resourcing needs.

You can use the services of Quality Managers, Document Controllers, Auditors to perform tasks you need when you need them. You simply ask for the resource you need, when you need it.

The result is up to 50% reductions in the cost of achieving and maintaining a Quality Management System

Training Programmes for all levels of management and staff in Quality and Business needs are available.

All training courses are accredited by major institutions from the United Kingdom.

An e-Learning solution is available which can be customised for your specific training needs.
